

Cash for recycling your old mobile phone

Don't miss the chance to do your bit for the environment in our Year of Climate Change and earn cash for your chosen projects and charities by recycling unwanted mobile phone handsets, or old inkjets and toner cartridges.

Several thousand special freepost envelopes (with the potential to generate up to £230,000 in cashback) were produced by and are still available from Redeem, who will donate up to a tenner for each mobile phone handset returned to them.

They will send a supply of the envelopes direct to your county offices. Call 0800 970 5097 and quote: Young Farmers' Appeal or visit www.recycleyourmobile.co.uk.
