

## West Midlands Young Farmers' Clubs

### What can we do?

- Attend a YFC meeting and give a general overview of what support is available to anyone thinking about starting a new business or working for themselves either now or in the future. It may just be the seed of an idea— but knowing what help is there could be really useful.
- Register individuals for Business Links on line newsletter and be first to know about any available funding, free courses etc.
- General sessions can last 30mins—2 hours, depending on the time you have available.
- A follow on two and a half hour session is available to anyone who is interested in exploring their idea a little more. One to one sessions are also available, completely free of charge.
- To thank you for hosting the evening we donate £50 towards club funds or refreshments
